

## **FAMILY SURVEY STUDY**

### **Informed Consent Information Form**

#### Description of the Study

In this study we are seeking to understand how your previous experiences as an adolescent are affecting your life now. We are interested in learning about your college teachers, your employers, and your friends. We are also interested in learning about any difficulties you may have encountered or any successes you may have enjoyed.

#### Participation Requirements and Guarantees

As you may recall, you have been participating in our Family Survey Study for several years now. We appreciate the valuable information you have given us in the past. Because of this, it is very important that you continue to participate so we can learn how things have changed as you moved from high school into the adult world.

If you agree to help, please fill out the attached self-administered survey and return it to us in the addressed and stamped mailer provided as soon as possible. At a later point, we will select some of you for additional interviews. These interviews will also be confidential and participants will be paid again for their time.

You are free to decide whether or not to be in this study. Some of the questions deal with conflict in relationships. You are free to skip any questions that make you uncomfortable and you will still receive the payment in full. Also, you may withdraw from participating in this study at any time.

To ease any discomfort, we guarantee that all of your answers will be kept strictly confidential and no one will see your answers except the interviewer and the research staff at the University of Michigan. Your name will not appear on the completed interview. No one except the research staff will be able to match your name with your answers. Further, we guarantee that any individual information presented in reports will be changed so that specific individuals cannot be identified.

We would like to obtain additional information about you from your high school records, things such as course selections, grades, and standardized test scores. If you agree by signing the attached sheet and returning it with your survey, we will obtain this information directly from the Prince George's County schools. This information will also be kept strictly confidential.

There are no direct health benefits to you from participation in this research, but you may find it to be interesting. We hope to benefit other young people and future parents by learning from your experiences. Additionally, the findings from this study may affect educational and public policies.

Risks to you as a participant are minimal. It is possible, however, that some questions might raise concerns or unsettling feelings. If this happens to you, or if you would just like some more information about this study, please feel free to contact the "project coordinator" at the telephone number listed below.

If you have questions regarding your rights as a subject, any concerns regarding this project or any dissatisfaction with any aspect of this study, you may report them--confidentially, if you wish—to the Chair, Institutional Review Board for Behavioral Sciences Committee, University of Michigan, Ann Arbor, MI 48109 or by telephone to (734) 747-3648. Copies of the University of Michigan Assurance of Compliance to the federal government regarding human subject research are available upon request from the address listed above.

We will be happy to answer any questions you might have about taking part in this study. Each person who agrees to participate should detach this form from the questionnaire and keep it. If you have any questions later on, you may call or write to:
