Please use response scale #17 for the following questions.

665. I'd like to get your feelings toward some people and groups that are in the news these days.

I'll read the name of a person or group and I'd like you to rate them using something we call the feeling thermometer. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the person or group and that you don't care too much for them.

You would rate the person or group at the 50 degree mark if you don't feel particularly warm or cold toward them. If we come to someone whose name you don't recognize, you don't need to rate them. Just tell me and we'll move on to the next one.

Our first group is Teachers. How would you rate this group using the thermometer?

(PROBE FOR "I DON'T KNOW" RESPONSE: When you say "don't know," do you mean that you don't know who the person/group is, or do you have something else in mind?)
